

CAREER OPPORTUNITY

Millwright/Welder– West Coast Chip Plant

Howe Sound Pulp and Paper has an immediate opportunity for a Millwright/Welder at our West Coast Cellufibre Chip Plant.

Located on the Fraser River in South Vancouver, West Coast Cellufibre has been in operation since 1969. The Chip Plant boasts one of the largest whole log chippers in North America, supplying over 40% of chips to Howe Sound's production and power generation.

JOB SUMMARY

Working in a fast paced outdoor environment, the millwright/welder is responsible for maintenance, repair and fabrication of all rotating equipment, conveyers, screens, structures and sub components. Although predominantly mechanical this position has a strong welding component, also with pneumatic and hydraulic systems. As part of a small maintenance team the technician will identify problem areas, report-repair and follow up with Superintendent to ensure efficient operations of the chip plant.

Hours of work: Shift work is required for this position.

A competitive benefit package is provided to employees who have successfully completed the probationary period.

QUALIFICATIONS:

- Journeyman Millwright/Welder/Fabricator

Please submit your written application, stating position title and outlining your qualifications for the position to: employment_coordinator@hspp.ca
