

**HOWE SOUND**  
PULP & PAPER CORPORATION  
**A PAPER EXCELLENCE COMPANY**

## Employment Opportunity

Millwright

West Coast Chip Plant

*Howe Sound Pulp and Paper has an opportunity for a Millwright at our West Coast Chip Plant.*

*Located on the Fraser River in South Vancouver, West Coast chip plant was built in 1985 and boasts one of the largest whole log chippers in North America. The chipper disk is 153 inches in diameter and will consume a 43" diameter log in a matter of seconds. West Coast Chip Plant produces approx. 450,000 gravity packed units of Hemlock and Douglas Fir chips annually; approximately 700 barges and is forty percent of Howe Sound's overall needs. WCC also generates 45,000 gravity packed units of hog fuel annually, approximately 90 barges that is used to fuel Howe Sound's power boiler.*

### Job Summary

The role of a Millwright is to trouble shoot, repair, install and apply preventative maintenance systems on a wide variety of equipment, processes. The ideal candidate will work effectively with operations, have exposure to lockout, confined space entry and working at heights and applying other modern safety programs while working on mechanical, hydraulic and pneumatic systems so that up-time is maximized and quality materials are produced.

### Qualifications

A Red Seal ticket is required. The ideal candidate will have multiple years of experience in production, heavy industry and possess their own hand tools. The successful candidate will have a proven safety record, a history of being a team player, must have the initiative to be able to work without direct supervision, able to work overtime when required.

Please submit your written application, stating position title and outlining your qualifications for the position to: [employment\\_coordinator@hspp.ca](mailto:employment_coordinator@hspp.ca)

We thank all applicants for their interest; however, only those selected for an interview will be contacted.
